Nearly three hundred thousand dollars in money and work has already been subscribed to the capital stock of the Company. The Louisiana Legislature has passed a bill aghiciting one hundred thousand dollars of stock to the Company. An additional aim of that amount will, without a deubt, be subscribed by the same body. The Company have resolved to take lands for stock, and this is the feature to which they desire to call the attention of owners of real esta's. In the Southern States, on account of the disorganized condition of laber, lands are an incumbrance, Vast fracts that yield no revenue to the proprietors, pay exorbitant taxes, and thus crippie their only productive resources. This Company propose to take these lands at a fair valuation and issue to take these lands as a fair valuation and issue to the owners their stock in ilea. If lands small enhance in value, so will the stock enhance in value, so will the stock enhance in value, so will the stock enhance in value, and thus reportly without desiry in his pocket the equivalent of his lands, to be converted into money or property without the representation. The stockholder, in addition to the bound! of the enhanced value of his lands, will be part owner of a line of boats, and be entitled to dividends in their earnings.

Persons wishing to exchange lands for the stock of the Company will send to the Agent at Memphis a description of them, their productive qualities, the timber, bottom or upland; whether overflowed or not; if overflowed, what propo thon; how near to county-town, to rall-road, depot, river, and all facts necessary to afford the Company a sattasactory the of the land. THE COMPANY KNOWN TO THE PUB-lic as the "Mississippi Valley Navigation Company of the South and West," is organized under a chaster from the State of Louisians. This charter authorizes a capital stock of five humored thousand dollars, with the privilege of extension to one million. That the public may know the exact object of the Company, the third article of the charier is given entire, as follows:

"The object of this Company is to construct or otherwise to procure and maintain one or YANNISSEE, WESTMORELAND.

AND OTHER BRANDS WHISKEY.

"The object of this Company is to construct or otherwise to procure and maintain one or more steamboars, or other vessels, to run on and navigate the Mississippi river, or its tributaries, for the purpose of carrying freight, malls and passengers; to construct cocks wharves, buildings and such other constructions as may be necessary to the building and repairing of vessels, and generally to exercise such incidental powers and privileges as are hareby or may by conferred on them for the purposes afterests. The Company proposes, under the provisions IRVING BLOCK.

TO WHOM IT MAY CONCERN.

The Company propose, under the provisions of this charter to construct a fine of steamers to run between the different ports on the Myster to run between the different ports on the Myster and its tributaries. They will be constructed upon the low-pressure principle; they will carry less steam; they will make settler time, and be in all respects more safe than any description of boats ever placed upon ser waters. Divided into distinct con partments, if disacter, whether by fire or smag, shall happen to one; the boat is not endangered. In case of fire, apparatus for inculng steam upon it with be provided, and its demonstrated that steam is the most effective extinguisher of fire. In case one compartment is broken through by confact with snags, and this with water, the others are not endangered, and the boat cannot sink, as amps, provided for such an emergency, will be in instant operation. Safety to passengers and treight is a great end, worthy of the struggle of the people of the Mississippi Valley.

EXTRACT OF BUTTER PLANT.

A brief aliusion to the origin of this important discovery may not prove uninteresting. Among the suthenti-sised records of the renowned Captain Cook's voyage around the world, is found the statement, that while so-journing for a short time on the Brazilian Coast of South a Brica, he observed the natives using, in the preparation of their food, a peculiar oil, which, upon examination, he sound to possess the appearance, taste and flavor of Butter; upon further inquiry, however, he ascortained that it was simply a substance that the natives distilled in a crude and imperfect manner from a rich and iturisat plant that grew spontaneously and abundantly in that warm tropical country. A few years ago an eminent French chemist, while on a professional visit to the tropics, made numerous experiments with this remarkable production of nature, and succeeded in extracting a concentrated essence of the plant. The formula for its preparation, and the Sole Right for the sale in this country are the scelenive property of this company, by whom it was merchased from the original discoverer.
